INSTALLATION GUIDE

Revision date: 10th December, 2010

Designed by: Dumitru Brinzan

http://www.wpzoom.com

INSTALLATION INSTRUCTIONS

1. Go to your WordPress Backend.

2. Open **Appearance → Themes → Install Themes**

3. Navigate to **Upload**

4. Browse for **.zip** file on your local computer, and **Install** it.

5. Then go to back to **Appearance → Themes**, and **Activate** theme
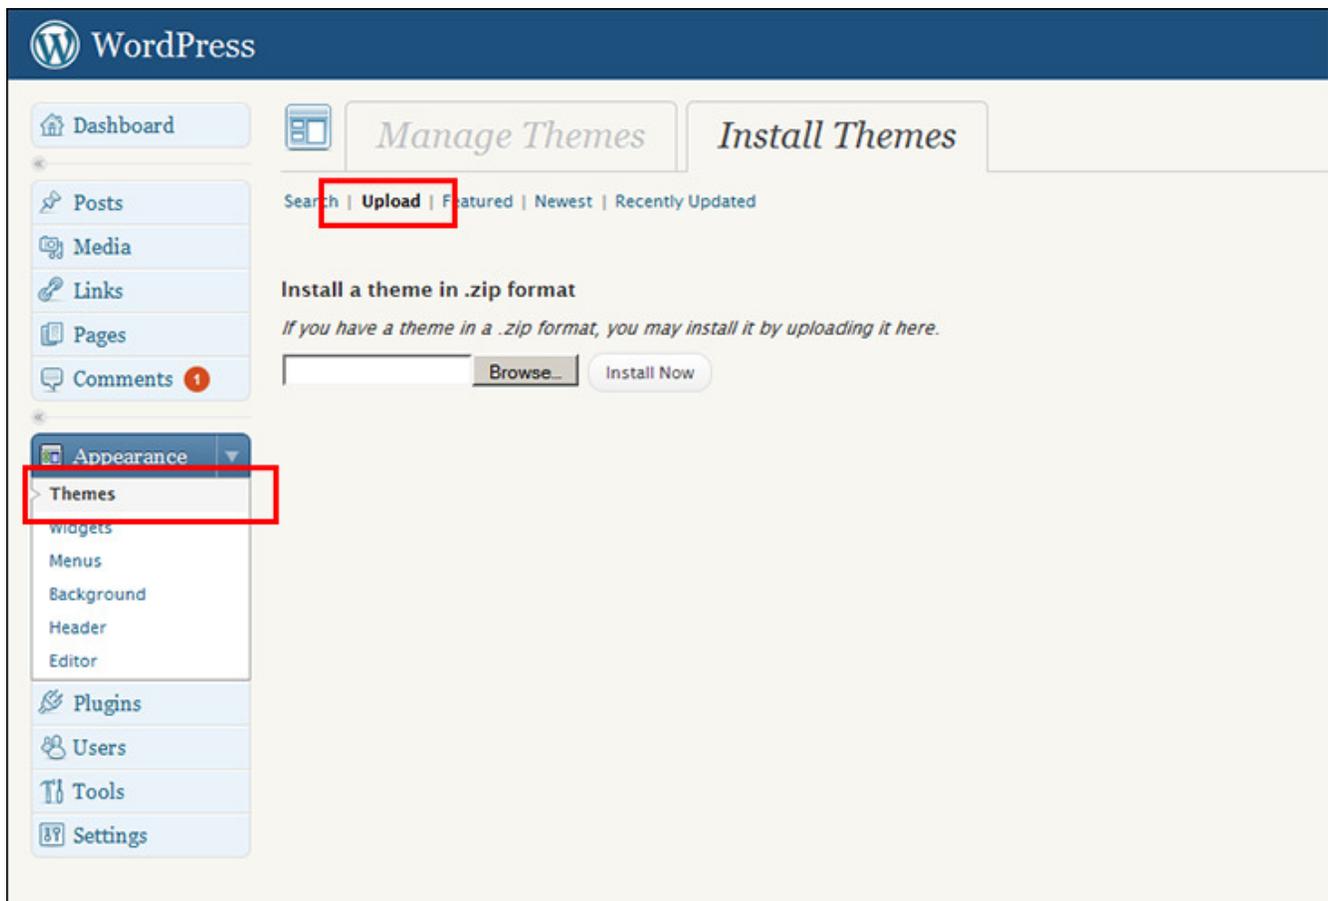

Got an error during installation process?

– **disable all your plug-ins and try installing the theme again,**

– **make sure you are running the latest recommended version of WordPress**

– **try uploading the theme manually via FTP, into the folder /wp-content/themes/**

CUSTOM MENUS

1. Go to **Appearance → Menus**
2. Create your own menus, using Categories, Pages and/or Custom Links
3. Specify your custom menus for **Theme Locations**

POST INSTALLATION STEPS

1. A new menu will appear in your Dashboard **– WPZOOM.** From this menu you will be able to configure **Themes Options**.

2. Navigate to **Appearance → Widgets** and add widgets to your theme.

HOW THUMBNAILS SYSTEM WORK?

Since the release of WordPress 2.9 we have implemented the "Post Thumbnails" feature, which allows you to manually what image to use as a post's thumbnail.

When adding/editing a post, on the right side you will see a box: **Featured Image**.

Click on it, upload an image and then click the "**use as featured image**" button.

If you don't upload such a thumbnail, the theme will automatically try to use as a thumbnail the first image found in the post's content body.
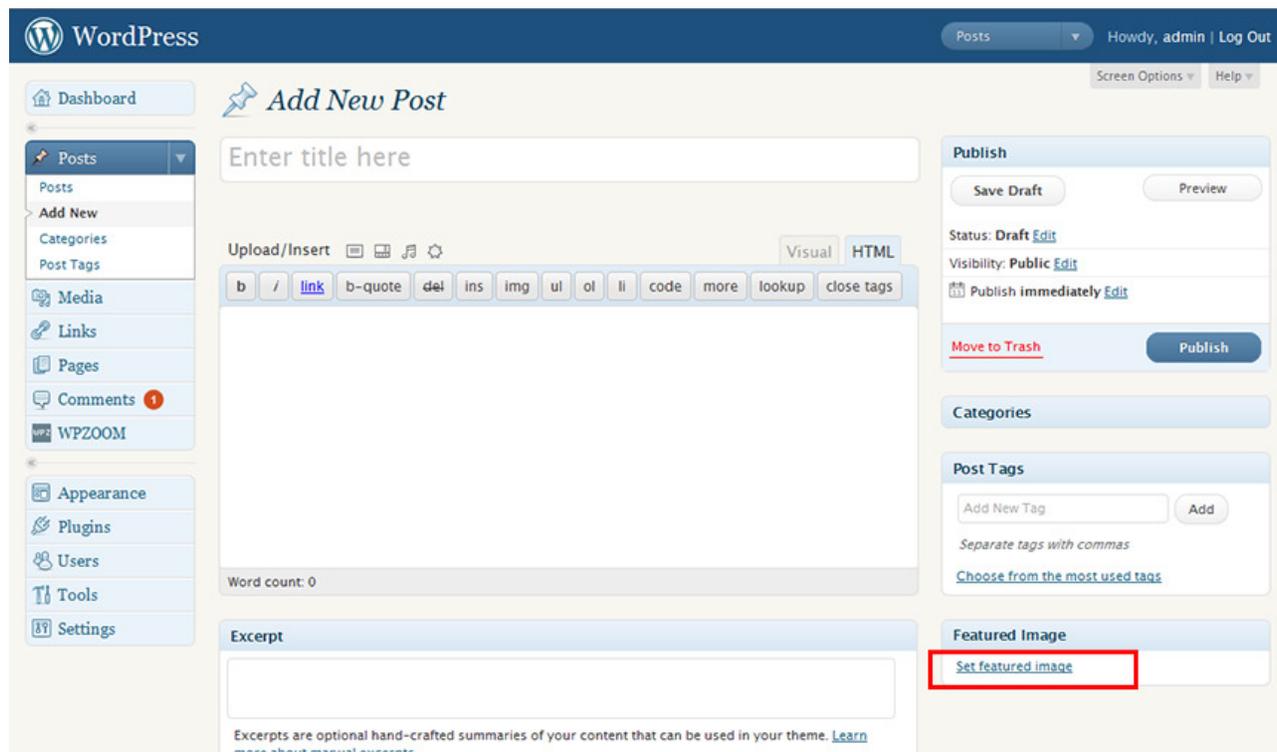

If no image will be selected as Featured Image, then the theme will pull the first image from articles content to be used as thumbnail.

FILE PERMISSIONS

MANIFESTO Theme uses the **TimThumb** PHP script for dynamic image resizing in some parts of the theme.

Set file permissions **777** (rwx-rwx-rwx) to:

> /**wp-content**/**themes**/**manifesto**/**scripts**/

and

> /**wp-content**/**themes**/**manifesto**/**scripts**/**cache**/

Otherwise TimThumb images resize script will not work properly.

Some important things to note:

*1. **TimThumb** requires the **GD library**, which is available on any host server with PHP 4.3+ installed.*

*2. On some hosts **TimThumb** will work with **755** permissions (rwx-rx-rx).On other hosts, you need to set 777 only to the /cache/ folder, while keeping 755 permissions for the /scripts/ folder.*

*3. If you are hosting your site with **HostGator**, take a look at this thread to solve the TimThumb issue: http://code.google.com/p/timthumb/issues/detail?id=8*

4. TimThumb requires that you use images hosted on the same domain, so you cannot insert(hotlink) images from other sites. You have to upload them to your site first.

SIDEBARS & UNIQUE WIDGETS

MANIFESTO THEME has one sidebar for placement of Widgets.

Sidebar	▼
Footer: Column 1	▼
Footer: Column 2	▼
Footer: Column 3	▼
Footer: Column 4	▼

MANIFESTO THEME has 3 unique specially developed widgets:

1. WPZOOM: Gallery

This widget will show a certain number of photos from a Flickr RSS Feed, your own or some other feed.
Just set the full URL to the RSS and select the amount of photos. Photos will appear 3 in a row.
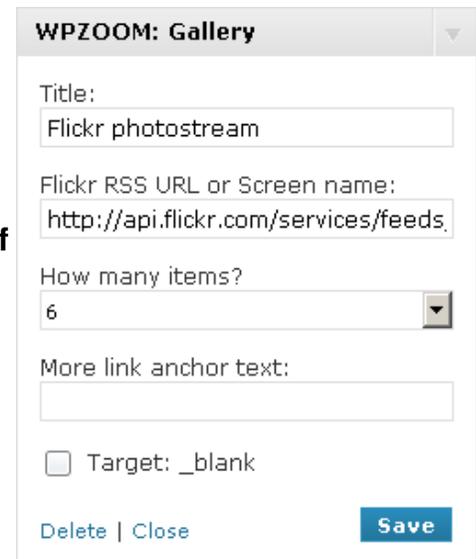

WPZOOM: Gallery

Title:
Flickr photostream

Flickr RSS URL or Screen name:
http://api.flickr.com/services/feeds

How many items?
6

More link anchor text:

☐ Target: _blank

Delete | Close   Save

2. WPZOOM: Featured Posts

This widget will show a certain number of posts from a selected category.
Should be placed in the Sidebar, not in the footer.
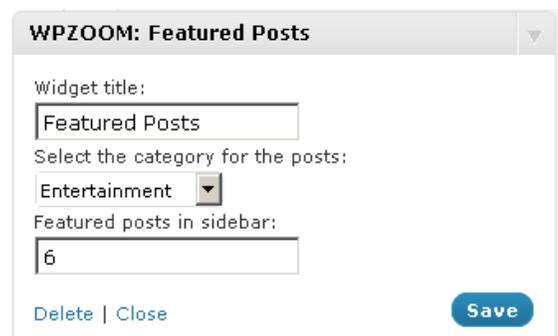

WPZOOM: Featured Posts

Widget title:
Featured Posts

Select the category for the posts:
Entertainment

Featured posts in sidebar:
6

Delete | Close   Save

3. MANIFESTO: Social Connections

This widget will show links to your profiles on popular

social sharing/networking web-sites.

Can be placed in Footer and in Sidebar.
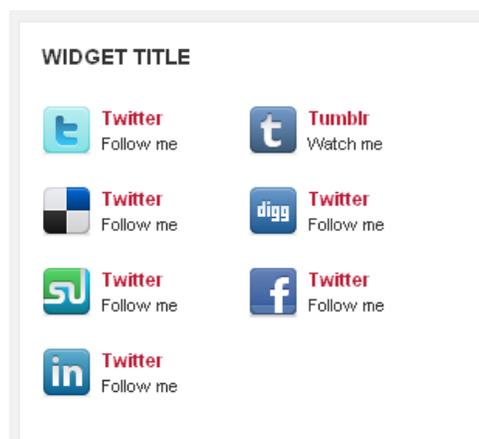

SUPPORT

Current version of **MANIFESTO Theme** has been developed for WordPress 3.0 and is not backwards compatible with older versions of WordPress.

MANIFESTO Theme has been tested in all modern browsers: IE 7, IE 8, Opera, Firefox, Safari and Google Chrome.

If you happen to face some difficulties with this theme, please consult our forums first.

The forum can be accessed here: http://www.wpzoom.com/forum/

To access the forum, you will need to confirm your account first. Instructions are available in the "**General Discussion (START HERE)**" section.

In the future, if a new version of WordPress will be released, it is advised to consult the Support Forum before updating the core WordPress files. We cannot guarantee that this theme will fully support all future versions of WordPress.
